HOLLON
SAFE COMPANY

A MESSAGE FROM THE PRESIDENT

Meet Zack Gilmore, Head Honcho of Hollon

Let me welcome you to Hollon Safe – a different kind of safe company. We make higher quality safes (they exceed industry standards for design, strength and durability) than others on the market … yet our prices are 20% to 50% less than our competitors'. Much of these savings are possible because we sell directly to our dealers … thus bypassing the markup from a "middle man." To sweeten the deal, we also offer free shipping when you but six or more safes.

It should be no surprise, then, why we have been one of the fastest-growing safe manufacturers in the nation.

I started Hollon Safe in 2007, but the idea came to me several years earlier. I realized there was a need for a company like ours when I was still a locksmith.

I was tired of some companies that were selling pricey safes that were little more than useless hunks of metal or even plastic… and others that sold quality safes – but at prices I considered unreasonably high.

The notion occurred to me that someone had to do something about the situation – and that someone was me! I had purchased my first locksmith shop and dedicated myself to the trade. As a result, I was able to increase sales by 300% in only four years. I then sold the business at a hefty enough profit to start Hollon Safe.

If there's one thing my dad taught me, it's to do your best … be your best … and offer your best. In fact, "Only the best" was his favorite saying – and the way he did business. And it's the same philosophy upon which I've built Hollon Safe Co. (By the way, Dad was born in the back of a flower shop, and grew up to become one of the top florists in the world during 1970s and early '80s. That's pretty impressive, and I learned a lot about business from him … especially how to treat customers.)

We are a family-owned business … and we treat our customers like extended family. We also have a heart for others … which is why we donate 10% of our profits to charity.

So, again … welcome. Feel free to make yourself at home and take a look around. I know you'll be happy with what Hollon Safe has to offer – quality you can measure at a price that won't break your bank.

Sincerely,

UL LISTED TL-15

MADE IN U.S.A.
With American and Global Parts

- 2 Hour Fire Resistant Factory Tested
- Single Lock
- Dual Lock *Upgrade available
- Special Design Burglary Resistant Handle
- UL listed Hollon dial lock.
- Glass re-locker
- Hard plate
- Bolt down hole
- Electronic Lock available upon request for additional cost
- Highly Compressed Proprietary Concrete Mixture
- Standard Color Battleship Grey

This is the TL-15 rated safe that thinks it's a TL-30. Not only does it have similar features, it has far exceeded every TL-15 test we've put it through. And that's some testing.

This TL-15 withstands the most sophisticated burglar attacks. Our team of experts has punished this baby with everything short of dynamite. They've gone at it with sledgehammers, pickaxes, crowbars and pry bars, power saws, chisels, drills and rotating disc cutters … with no luck.

As if that's not enough, this offers added protection against high-intensity fires. That's right … this TL-15 has passed our Two Hour, 350° F Fire Test Certification. We're talking forest fire strength.

1750°F 2hr protection

30ft impact rated

Electronic or Mechanic

Extra Thick

- Two-hour KSG 4500 rated for 1750 degrees fire safe.
- 30 foot impact rated.
- Extra thick body and door construction for added strength and appearance.
- Choice of electronic keypad or dial with key.
- 2-Active locking bolts PLUS fixed hinge side bolts.
- One removable shelf (HS-500 model only).
- One anchoring hole. (Bottom)
- Bolting hardware included

Maximum protection from fire and water. Hollon Home Safes offer a full 100% more fire protection than the average home safe on the market today. Thicker walls… thicker doors … and a grooved door seal promise a no-holds-barred defense against fire and water. Tested at a blazing 2-hour KSG 1750° F external temperture, this safe is still able to maintain an internal temp of only 350° F. To top it off, it's also 30-foot impact rated. This is one tough safe to crack.

- Water resistant.
- Anchor bolt for bolting safes to the floor on all models except HS-1750E.

As hard to kill as "The Terminator"

Hollon Office Safes are ultimate protection machines… manufactured with state-of-the-art technology and craftsmanship to provide the best protection of your documents and valuables against the threat of fire and burglary.

Just look at these features:

- Rated for 2 full hours at 1700° F outside, these safes refused to heat up past 350° F on the inside.
- Survived the KSG 30-foot impact test that simulates falling from a collapsing second story onto concrete.
- Bolt-down hole and hardware are included to add burglary resistance to the already heavy duty bolt work.

These elite safes are practically unstoppable.

1/2" Thick plate on door

Drill resistant

GROUP UL LOCK

MADE IN U.S.A.
With American and Global Parts

- B Rated Floor Safe for foundations.
- ½" thick solid steel door.
- Spring loaded re-locking device.
- Full length dead bar.
- Powder coated for more durable protection.
- U.L. listed Group II lock, with re-locker to protect against burglary attempts.
- 5 chrome plated solid steel locking bolts.
- Air-spring bar enable the door can be opened easily.
- Drill resistant hardplate to protect lock.

You'll need a jackhammer to pry these loose.

Floor Safes offer the added advantage of concealment. Once installed in concrete and covered with a rug or carpet, they are near impossible to find. If the safe is found, it will literally take a jack hammer to wrest it out of the foundation.

And the door is reinforced with drill-resistant hard plate made of hardened steel. You can't buy a drill or drill bit at your local hardware store that will even scratch the surface.

That's why these bad boys are our favorite high-security safes for gold coins, jewelry, paperwork, and a variety of other valuables. B Rated and strong enough to use in a commercial environment but still affordable enough to install at home. We also install one of our UL listed Group II high usage Hollon dials at no additional charge – to give you decades of problem-free usage.

The new standard in safe locks!

SPARTAN PIVOTBOLT

- Underwriters Laboratories Listed Type 1, VdS Class 2, EN1300 B, A2P B/E, DNV, and RoHS (Reduction of Hazardous Substances) compliant.
- The Spartan™ PivotBolt™ lock features a motor driven locking mechanism for an extra measure of security and longer battery life.
- Lock bolt retraction and extension is controlled by the movement of the safe's boltwork.
- The Spartan™ PivotBolt™ automatically locks to re-secure the safe whenever the container's boltwork moves to the fully closed position, discouraging the common (non-secure) practice of day-locking.
- The Spartan™ PivotBolt™ is connected to the keypad only by cable, which means the lock does not need to be placed directly behind the keypad. It can be located anywhere on the inside of the safe door.
- All PivotBolt models use the standard S&G Magic Module footprint, allowing for easy retrofit without the need for boltwork or mounting screw location changes. Plus, it's universally handed and reversible for RH, LH, VU, and VD mounting.
- Two modes of operation, STAR and BASIC, to let you choose the operating procedures that are most intuitive to you.
- Management reset code, one master code, and one user code that can be quickly enabled or disabled by the master code. The management reset code (MRC) lets you set a new master code of your own choosing if the old master code is lost or forgotten.
- The Spartan™ PivotBolt™ has a penalty time feature to prevent opening by entering sequential or random codes until a valid code is found.
- The keypad sounder (beeper) can be tuned on or off by entering a simple keypad command.
- All programming is quickly and easily done via the keypad (no separate programming equipment required).
- The lock bolt withstands 225 lbs. (1000 newtons) of bolt end pressure for a high level of security in boltwork blocking applications.
- Can be used with the S&G 2-battery keypad, standard 1-battery keypad (standard or lighted), or the non-rotating low profile keypad.

6120 SERIES

- Underwriters Laboratories Listed Type 1, and RoHS (Reduction of Hazardous Substances) compliant.
- A motor-driven lock bolt offers a high level of security by eliminating the threat of vibration and bouncing attacks.
- Management reset code, one master code, and eight user codes.
- Management reset code (MRC) restores the lock to its original factory code if the master code is lost.
- Time delay up to 9 minutes.
- The 6120 Series incorporates a penalty time feature to prevent opening by entering sequential or random codes until a valid code is found.
- The deadlocking square bolt model withstands 225 lbs. (1000 newtons) of bolt end pressure for a high level of security and durability in boltwork blocking applications.
- Non-deadlocking spring bolt model is designed for lightweight and inner compartment doors that require the lock to latch and secure the door.
- Can be used with the Biometric Keypad, 2-battery keypad, standard 1-battery keypad (lighted and non-lighted), and the low profile keypad.

TITAN PIVOTBOLT

Underwriters Laboratories Listed Type 1, VdS Class 2, CEN B, A2P B, DNV, and RoHS (Reduction of Hazardous Substances) compliant.

- The Titan PivotBolt™ lock features a new design, motor driven locking mechanism for an extra measure of security and longer battery life.
- Lock bolt retraction and extension is controlled by the movement of the safe's boltwork.
- The Titan PivotBolt™ automatically locks to re-secure the safe whenever the container's boltwork moves to the fully closed position, discouraging the

common (non-secure) practice of day-locking.

- The Titan PivotBolt™ is connected to the keypad only by cable, which means the lock does not need to be placed directly behind the keypad. It can

be located anywhere on the inside of the safe door.

- S&G Magic Module footprint for easy retrofit, and it's universally handed and reversible for RH, LH, VU, and VD mounting.
- Three modes of operation: Multi-User, Manager/Employee, Dual Control.
- Management reset code, one master code, one supervisor code, eight user codes, and one time delay override code*. The management reset code

(MRC) lets you set a new master code of your own choosing if the old master code is lost or forgotten.

- The Titan PivotBolt™ has a penalty time feature to prevent opening by entering sequential or random codes until a valid code is found.
- All programming is quickly and easily done via the keypad (no separate programming equipment required).
- The lock bolt model withstands 225 lbs. (1000 newtons) of bolt end pressure for a high level of security in boltwork blocking applications.
- Can be used with the S&G 2-battery keypad, standard 1-battery keypad (lighted and non-lighted), or the non-rotating low profile keypad.

DIAL LOCKS
The new standard in safe locks!

SARGENT AND GREENLEAF GROUP 2M MECHANICAL SAFE LOCKS

SECURITY UL LISTED GROUP 2M

- Three brass and aluminum combination wheels provide 1,000,000 theoretical combinations.
- Designed and constructed to perform in the most demanding commercial applications.
- Internal relock trigger secures the lock in the event of a burglar's punch attack.
- Four-way drive cam allows mounting right-hand, left-hand, vertical-up, or vertical-down.

SARGENT AND GREENLEAF DIALS AND RINGS

D300/R211

front reading, large knob, non-key locking

D225/R167 SATIN CHROME

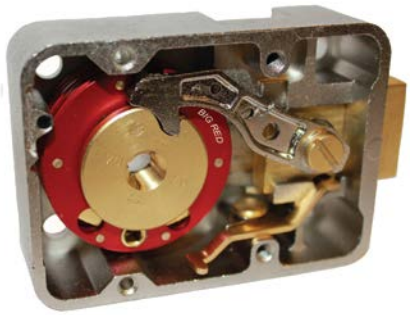
Spy-Proof®, large knob, key locking

D225/R167 B&W

Spy-Proof®, large knob, key locking

- All dial and rings pictured above and listed in the table directly below can be used with any Group 2 or Group 2M-type lock.
- All dials incorporate spindles splined to 41 on the dial. This results in a forbidden zone of 90 to 10 in Group 2 and Group 2M combination locks.

BIG RED SAFE LOCKS



- All dial and rings pictured above and listed below can be used with any Group 2 or Group 2M Lock Models.
- All dial and rings can be mixed to create different color finish combinations.
- All dials and rings on this page are made from die casted zinc material.
- Optional Black Plastic Ring. Order R6000
- The Dial with Ring; sits approximately 1-3/8" [34.9mm] off the door with a 3-3/4" [95.25mm] O.D.
- All dials on this page incorporate a solid, machined brass spindle with a standard spindle length of approximately 4-1/8" [104.8mm] from the underside of the dial ring. Dials with longer spindles are available as a special order item.
- All dials on this page incorporate spindles splined to 41 on the dial. This results in a forbidden zone of 90 to 10. Special Order dials with spindles splined to 50 on the dial will result in a forbidden zone of 0 to 20.
- Finishes, spindle lengths, and spindle splining locations other than those listed can be special ordered.

HOLLON SAFE WARRANTY
LIFETIME FIRE GUARANTEE

HOLLON SAFE BACKS ALL OUR FIREPROOF SAFES WITH A LIFETIME WARRANTY AGAINST FIRE. WE WILL GLADLY REPLACE AND HOLLON FIREPROOF SAFE THAT HAS BEEN DAMAGED IN A FIRE WITH THE SAME OR A COMPARABLE MODEL TO INCLUDE ALL FREIGHT COSTS TO THE ORIGINAL ADDRESS OF PURCHASE. CUSTOMERS WILL BE REQUIRED TO SUPPLY ALL REQUESTED DOCUMENTS TO AN AUTHORIZED HOLLON SAFE REPRESENTATIVE PRIOR TO REPLACEMENT. CONTACT HOLLON SAFES AT 1.888.455.2337 FOR ADDITIONAL INFORMATION OR RESTRICTIONS.

LIMITED WARRANTY

HOLLON SAFE WARRANTIES ALL PARTS AND LABOR, INCLUDING ALL HOLLON DIGITAL COMPONENTS, ON ALL SAFES PURCHASED FOR PERIOD OF 90 DAYS FROM DATE OF PURCHASE AGAINST MANUFACTURE DEFECTS. WE PROVIDE A 2 YEAR WARRANTY ON ALL REPLACEMENT PARTS. EXTENDED WARRANTY INCLUDES HOLLON DIGITAL COMPONENTS. OTHER BRAND DIGITAL COMPONENTS, ELECTRONIC KEYPADS, WILL ONLY BE WARRANTED FOR A PERIOD OF 90 DAYS FROM DATE OF PURCHASE. ONLY DIGITAL COMPONENTS THAT ARE FACTORY INSTALLED OR INSTALLED BY A HOLLON SAFE TECHNICIAN PRIOR TO SHIPMENT WILL BE COVERED UNDER THIS 90 DAY WARRANTY. HOLLON SAFE WILL NOT WARRANTY ANY DIGITAL COMPONENT INSTALLED ON SAFES THAT ARE INSTALLED WITHIN A FLOOR. THIS WARRANTY DOES NOT COVER ANY DAMAGES CAUSED BY MISHANDLING, NEGLECT, WATER, TAMPERING, IMPROPER INSTALLATION, REMOVAL AND/OR REINSTALLATION OF THE SAFE. HOLLON SAFE MUST BE NOTIFIED WITHIN A PERIOD OF SEVEN DAYS OF THE RECEIPT OF ANY SAFE DAMAGED DURING SHIPPING IN ORDER TO UPHOLD THE WARRANTY AND/ OR DAMAGE CLAIMS. WARRANTIES ON DAMAGE CLAIMS WILL ONLY BE ACCEPTED IF THE CUSTOMER HAS PROPERLY EXECUTED THE OUTLINED DAMAGE AND DELIVERY POLICY AND PROCEDURES. RE-SETTING OF ANY COMBINATION ON A GROUP II DIAL LOCK MUST PERFORMED BY A QUALIFIED LOCKSMITH OTHERWISE THE WARRANTY WILL BECOME VOID.

THIS WARRANTY IS VALID FOR THE ORIGINAL CUSTOMER OF PURCHASE AND IS NON-TRANSFERABLE. AT NO TIME WILL THE WARRANTY COVER MORE THAN THE ORIGINAL PURCHASE PRICE OF THE SAFE. AT NO TIME WILL HOLLON SAFE BECOME LIABLE FOR THE COST OF INSTALLATION AND/OR REMOVAL OF AN HOLLON SAFE OR ANY CONTENTS OR VALUABLES THAT MAY BE STORED IN ANY HOLLON SAFE. HOLLON SAFE'S SOLE DISCRETION UNDER THIS WARRANTY, IS AT HOLLON SAFE'S OWN OPTION AND OWN EXPENSE. HOLLON SAFES WILL REPAIR THE DEFECTIVE SAFE OR PART, WILL DELIVER TO THE CUSTOMER THE SAME OR COMPARABLE SAFE OR PART FOR REPLACEMENT OF THE DEFECTIVE PART, OR IF NEITHER OF THE TWO PREVIOUS OPTIONS IS REASONABLY AVAILABLE, HOLLON SAFE MAY, AT ITS OWN DISCRETION, REFUND TO THE CUSTOMER THE ORIGINAL PURCHASE PRICE PAID FOR THE DEFECTIVE SAFE. ALL SAFES OR PARTS THAT ARE REPLACED OR REFUNDED WILL BECOME THE SOLE PROPERTY OF HOLLON SAFE. AN AUTHORIZED HOLLON SAFE REPRESENTATIVE MUST APPROVE ALL CLAIMS AGAINST HOLLON SAFE. ALL REPAIRS MUST BE APPROVED BY A HOLLON SAFE REPRESENTATIVE BEFORE ANY WARRANTY REPAIRS CAN BE COMPLETED. IF A WARRANTY REPAIR IS COMPLETED PRIOR TO OBTAINING AN APPROVAL FROM HOLLON SAFE, HOLLON SAFE RESERVES THE RIGHT TO REFUSE PAYMENT TO THE SERVICE PROVIDER OR REIMBURSEMENT TO THE CUSTOMER FOR ANY UNAUTHORIZED REPAIRS.

IMPORTANT: CAUTION-WARNING

***ALL SAFES ARE HEAVY. NEVER LIFT A SAFE BY YOURSELF OR WITHOUT PROPER TRAINING, HEAVY LIFTING GEAR OR SAFE MOVING EQUIPMENT. ALWAYS USE A LICENSED, BONDED AND TRAINED LOCKSMITH COMPANY OR MOVING COMPANY TO MOVE AND INSTALL YOUR SAFE. ALWAYS BOLT YOUR SAFE TO THE FLOOR. A SAFE IS NOT A TOY NEITHER IS ITS PACKAGING! KEEP CHILDREN AWAY FROM THE SAFE AND THE PACKAGING. SAFES ARE CONSIDERED AIRTIGHT. NEVER LOCK A LIVING BEING IN A SAFE. HOLLON SAFE ASSUMES NO LIABILITY FOR USAGE. WHEN YOU BUY A SAFE YOU ARE BUYING TIME, TIME AGAINST FIRE, TIME AGAINST THEFT. GIVEN ENOUGH TIME AND PROPER TOOLS ANY SAFE CAN BE BROKEN INTO.

SAFE DOOR IS HEAVY. OPENING A SAFE ON AN UNEVEN OR UNSTABLE FLOOR (PLUSH CARPET) MAY CAUSE SAFE TO TIP FORWARD. BE SURE TO SECURE SAFE PRIOR TO USE. FAILURE TO FOLLOW INSTRUCTIONS OR TO HEED THIS WARNING MAY RESULT IN SERIOUS INJURY OR EVEN DEATH.

WARRANTY CLAIMS

AN AUTHORIZED HOLLON SAFE REPRESENTATIVE MUST APPROVE ALL CLAIMS AGAINST HOLLON SAFE.
